Salon chain with a difference

Since its launch in the US in 1975, Supercuts has come a long way and is now one of the fastest-growing Salon chains in the UK. With a clear message to deliver top quality hairdressing with a lower price tag and the offer of a walk-in service, the launch of the brand's 'Look. Cool. Quick' campaign aims to keep up with the fast-moving hair fashions and offer

an accessible and affordable route to looking as good as you want more quickly. Supercuts salons are located conveniently on high streets and in shopping centres, putting them within easy reach of customers. Their window-displayed salon menus mean that you know exactly what you're getting and the cost involved. With a young, unisex customer base, this makes it easy to experiment with your style and achieve quality for less. Their motto 'Your style In your time' makes Supercuts a refreshing hair styling option on the high street.
